Work History

Nov 2018 – Dec 2019

Customer Relation Officer at Hinduja Global Solution

Used company troubleshooting resolution tree to evaluate technical problems while leveraging personal expertise to find appropriate solutions.

Projects Detail

Currency Converter

Team Size: 1

Role Played: Designer, Developer and Tester

Skills Used: JavaScript, HTML, CSS, API

This was a small but useful project for those people who want to know the real time value of currency. I've made this using JavaScript, HTML, CSS and currency converter API.

Chrome Extension of online FM radio

Team Size: 1

Role Played: Developer, Designer and Tester

Skills Used: JavaScript, HTML, CSS

Online FM radio is very useful for those people who want to listen mostly songs while working on computer. The best part of this project is that I made it as chrome extension, so user can just click on extension and select his favorite radio stations and play.

Todo Web App

Team Size: 1

Role Played: Developer, Designer and Tester

Skills Used: JavaScript, HTML, CSS, React, Redux

This todo app made with library react and redux and is very useful tool to remember the todo task and when task is done then user can tick complete and later he can delete also. The most useful part of this project is user friendly and user can see his total task, completed task and pending task in number format.

Delivery.com

Team Size: 3

Role Played: Client side developer

Skills Used: React, Redux, React-Router, Bootstarp, FontAwsome, JavaScript, HTML, CSS

This is a kind of foodie web site for ordering ready made food form restaurant. Client can search restaurant using address and after that client get nearby restaurant. There are many filtering option like rating wise, expensive wise etc.
